**Enrolment**

Enrolment is considered complete after full payment is received and this form is duly completed and returned to us.

We accept bank transfers, credit cards, cash brought to our office.

**ESSENTIAL PREREQUISITES** to be eligible to enroll in the Merrithew™ courses:

- 1) In order to keep the courses to the required standard of delivery as well as avoid difficulties in understanding the subject matter, it is necessary and recommended to have a minimum of 10 hours of Pilates.
- 2) Anatomy and biomechanics knowledge of terminology, muscle and skeleton systems (knowledge of muscles and bones). As such, a prior reading of the following book which you may find for sale at our office is recommended:  
“Trail Guide to the Body” by Andrew Biel

The intent of our Educational Courses is that to prepare students to know the exercises, to learn their choreography, to learn to teach them, to know modifications and involved muscles, postural analysis and programming.

The course objective is NOT that of working students out nor teaching anatomy.

We therefore kindly ask our students to come to our courses with the minimum required physical preparation as well as to enroll in the Functional Anatomy 30hour course, should their knowledge be insufficient.
